CINCHTITE™

Tarp Clip

SUPERIOR HOLDING POWER

SUPERIOR HOLDING POWER

Powerful jaws provide the ultimate grip for hundreds of uses!

Tarps ■ Covers ■ Bags ■ Tents ■ Canopies ■ Awnings ■ Shelters
BBQ Covers ■ Poly Sheeting ■ Boating ■ Marine Use ■ Hunting
Fishing ■ Construction RVs ■ Gardening ■ Work Shelters ■ Banners

- **Attach rope, cord, or stretch cord to clip.**
- **Place tarp or other material between jaws. Position clip where desired.**
- **Slide collar until tight.**
- **To release, depress release button, slide collar away from jaws.**

WARNING: Always slide locking collar to maximum tightness. When using clip on thin materials, fold material several times or fold over matchstick to give jaws something to "bite". Use extreme caution when using with stretch cords. Cord or clip may dislodge under tension, causing cord to recoil quickly. To avoid injury, wear protective eyewear when fastening stretch cords and keep all body parts away from cord and clip rebound path. Never use to support human or animal weight or to secure cargo/loads subjected to wind force.
